

**Table Attached to Cabinet Resolution No. (122) of 2022
Concerning the Fees of Licences Related to Naturally Occurring Radioactive
Material and certain Activities Carried out by the Federal Authority for
Nuclear Regulation**

**First: Fees Related to the Naturally Occurring Radioactive Waste Treatment
Facility:**

S	Description	Fee (In AED)
Licence Activities		
1	Acceptance of the application for constructing a naturally occurring radioactive waste treatment facility.	130,000
2	Licensing the construction of a naturally occurring radioactive waste treatment facility.	4,031,000
3	Licensing the operation of a naturally occurring radioactive waste treatment facility.	4,280,000
4	Licensing the change of ownership of a previously licensed naturally occurring radioactive waste treatment facility.	428,000
5	Licensing of the decommissioning of a naturally occurring radioactive waste treatment facility.	1,040,000
6	Terminating the licence of the decommissioning of a naturally occurring radioactive waste treatment facility.	564,000
7	Amending the licence of the construction of a naturally occurring radioactive waste treatment facility.	403,000

8	Amending the licence of the operation of a naturally occurring radioactive waste treatment facility.	428,000
9	Renewing the licence of the operation of a naturally occurring radioactive waste treatment facility.	428,000
10	Amending the licence of the decommissioning of a naturally occurring radioactive waste treatment facility.	104,000
Regulatory Supervision Activities		
11	Regulatory supervision during the operation of a naturally occurring radioactive waste treatment facility.	952,000 per annum A fee imposed at the beginning of each fiscal year following the date of issuance of a licence to operate a naturally occurring radioactive waste treatment facility.
12	Regulatory supervision during the decommissioning of a naturally occurring radioactive waste treatment facility.	297,000 per annum A fee imposed at the beginning of each fiscal year following the date of issuance of a licence to decommission a naturally occurring radioactive waste treatment facility.

Second: Fees Related to the Naturally Occurring Radioactive Waste Disposal Facility:

S	Description	Fee (In AED)
Licence Activities		
1	Acceptance of the application for constructing a naturally occurring radioactive waste disposal facility.	130,000
2	Licensing the construction of a naturally occurring radioactive waste disposal facility.	2,112,000
3	Licensing the operation of a naturally occurring radioactive waste disposal facility.	2,282,000
4	Licensing the change of ownership of a previously licensed naturally occurring radioactive waste disposal facility.	228,000
	Licensing the closure of a naturally occurring radioactive waste disposal facility.	561,000
6	Amendment of the licence of closure of a naturally occurring radioactive waste disposal facility to allow the transfer of institutional regulation responsibility from the licensee to an entity or institution specified by State laws.	564,000
	Amending the licence of the construction of a naturally occurring radioactive waste disposal facility.	211,000
8	Amending the licence of the operation of a naturally occurring radioactive waste disposal facility.	228,000
9	Renewing the licence of the operation of a naturally occurring radioactive waste disposal facility.	228,000
10	Amending the licence of the closure of a naturally occurring radioactive waste disposal facility.	104,000

Regulatory Supervision Activities		
11	Regulatory supervision during the operation of a naturally occurring radioactive waste disposal facility.	769,000 per annum A fee imposed at the beginning of each fiscal year following the date of issuance of a licence to decommission a naturally occurring radioactive waste disposal facility.
12	Regulatory supervision during the closure of a naturally occurring radioactive waste disposal facility.	297,000 per annum A fee imposed at the beginning of each fiscal year following the date of issuance of a licence of the closure of a naturally occurring radioactive waste disposal facility.

Third: Fees Related to the Possession, Handling and Storage of Naturally Occurring Radioactive Waste

S	Description	Fee (In AED)
Licence Activities		
6	Acceptance of the application for a licence of possession, handling and storage of naturally occurring radioactive waste.	6,000
2	Licensing the possession, handling and storage of naturally occurring radioactive waste for a period of three (3) years.	137,000
3	Amending the licence of possession, handling and storage of naturally occurring radioactive waste.	24,000
4	Renewing the licence of possession, handling and storage of naturally occurring radioactive waste for a period of three (3) years.	24,000
Regulatory Supervision Activities		
5	Regulatory supervision over the possession, handling and storage of naturally occurring radioactive waste.	24,000 per annum At the beginning of each fiscal year following the date of issuance of a licence of possession, handling and storage of naturally occurring radioactive waste.
